
Office 2010 Toolkit 223 Fix Free 16

office 2010 toolkit 223 16 Recently, I started getting a lot of problems when using the command line. I searched on Google and found this "Download Office 2010 Toolkit". I downloaded and installed it but when I try to run it I get the following error
Office 2010 Toolkit: Cannot open file C:\\Users\\Alex\\Desktop\\MSFT\\Microsoft Office 2010 because it has been modified
Does anyone know what type of file and what is the change? I think it might be something with my computer or my account.
