The Elden Ring is an RPG in a brand new fantasy action game world where a protagonist revives the dragon's flame with the power of the All, the shared element of the Elden. As an Elden Lord, you fight alongside your companions and allies, and obtain the power to form relationships with other dragon-like characters known as Dragons. With your allies by your side, you go on a journey to accumulate the power of the All and become the strongest and wisest Dragon Lord that the entire world has ever seen. ABOUT MIDORI ENTERTAINMENT CO., LTD. Located in the Tokyo, Midori Entertainment Co., Ltd. is an independent developer, publisher, and operator of on-line game services and products in Japan. Content on this page comes directly from press releases and fact sheets provided by publishers and developers and was not written by the Game Revolution staff. The new Seine-Nord Est tramway line is enjoying so much positive feedback from French people and tourists that its cost has been totally revised. Which, inevitably, is pretty good news for French taxpayers. They will be relieved to learn that the latest survey of the tram route's usefulness shows it has generated 37.6m euros of economic benefits and 5m of supplementary tax revenue. The money is derived from the number of ticket sales, the economic activity that naturally results from spending all that money (which is not, after all, the public purse's to fund), and a supplementary tax levied on ticket and TGV passes. There was no word, however, on the passengers travelling on the tram who are accused of paying twice. Saving the planet On the other hand, the survey demonstrates that, in spite of all these economic benefits, the tramway is saving the planet from pollution and greenhouse gas emissions. No, that is not a typo - the survey found that passengers going from Gare Saint-Lazare to La Défense via La Havre-Aval and Nantes-Brest-Grozon were making 70.2m fewer CO2 emissions than if the tram
